Team Representative \_\_\_\_\_

***The PRIIA Technical Sub Committee is focused on developing common specifications for rolling stock equipment for use by all intercity passenger rail operators. These designs are to develop reliable products that feature modular components and standardized designs to minimize vehicle variability and component inventories.***

Team Questionnaire

- 1) What components have been identified as part of your team's scope.
- 2) Identify (if any) sub committees that your group has formed and identify the members.
- 3) Identify any additional support your team needs to complete the task.
- 4) Define project milestones for each sub group with estimated timelines.
- 5) Itemize any questions your team has identified necessary to complete your tasks. Identify those in which you received answers during the meeting and no longer require an answer.

***Each team is requested to provide team answers to as many of the questions as possible. Answer the questions in the order they are presented. Do not be concerned if the team is unable to complete all the questions in the allowed time.***
